📰 Thesis

Automating Social Engineering Campaigns through RPA
Developed an automated system using RPA to streamline social engineering campaigns, focusing on efficiency and ethical considerations.
Technologies Used:
- Frontend: C#
- Backend: Python
- Data Processing: Pandas
- Communication Protocol: SMTP
- Database: MySQL

🖧 Tech Stack

Frontend:, *VueJs, Angular*

Backend:, *Go, Python*

Repositories, *PostgreSQL, Redis, MongoDB*

Message Broker, *RabbitMQ*

CI/CD:, *DroneCI, Github Actions*

💼 Professional Experience

Freelance
2023 Nov – present | Heraklion, Crete, Greece
While I was serving in Hellenic Navy, I leveraged my expertise in software development to deliver tailored solutions for clients.

Responsibilities:
- Develop a micro CRM system for a local gym, to enable efficient customer management.
- Develop, deploy and maintain customers' websites.
- Communicate regularly with clients to update on project progress and address any concerns.

Computers and Network Engineer, *Hellenic Navy*
2023 Nov – 2024 Aug | Souda, Crete, Greece
As a software engineer serving in the Hellenic Navy, I was responsible for managing and maintaining the naval station's computer systems and streamline administrative tasks.
Responsibilities:
- Ensure the proper operation of all onboard computers and peripherals.
- Troubleshoot technical issues and implement effective solutions.
- Develop and apply Excel automations to streamline administrative tasks.
- Provide IT support and assistance to fellow crew members.

Full Stack Developer, *Adrestia R&D*
2022 Apr – 2023 Nov
As part of the team of Adrestia R&D, I was highly involved in the end-to-end development of the company's products and the successful completion of the tasks we undertook in several EU Projects.

European Projects I was highly involved in:
- **SECANT**: https://secant-project.eu/ 🗗
- **TRUSTEE**: https://horizon-trustee.eu/ 🗗
- **TREEADS**: https://treeads-project.eu/ 🗗
- **CHAMELEON**: https://chameleon-heu.eu/ 🗗

Intern Full Stack Developer, *Pasiphae Lab*
2021 Oct – 2022 Apr
During my internship in Pasiphae Lab of Hellenic Mediterranean University I got familiar with State-Of-The-Art development frameworks and environments. I am forever grateful for having the opportunity to be part of a team comprised by experts in a variety of fields, thus amplifying my growth as a software developer.
